

custodian for legal™
Matter Management
for O365/SharePoint
for Law Firms and Corporate
Legal departments

Maximise your Microsoft O365
investment to provide Legal Matter
Management

With Repstor custodian for legal™ you can exploit the powerful collaboration, document management, workflow and reporting capabilities of O365 for matter management, making more use of software your people use every day.

Our system builds on the investment you and your users have already made in your O365 system.

We bring matter centrality and Outlook centric working to the platform allowing you to achieve greater value and deliver effective matter management capability with minimal change for users.

"The usability alone brings significant benefits. Just freeing up an hour of a feeearner's time from hunting down the latest documents is hugely transformational to productivity."

Barry Roddick, Ignite team leader, Eversheds Sutherland

About Repstor

Repstor, headquartered in Belfast and ranked in the Top 10 Deloitte Fast 50 companies, provides affordable, easy-to-deploy solutions that transform how information workers access, store and manage content wherever they are. By making this very intuitive, and harnessing tools that people use every day, we increase organizations' return on existing investments in file share and content management repositories.

Our world-class suite of products breathe new life into platforms including SharePoint, M-Files, Microfocus Content Manager, Opentext eDocs, Dropbox, Box, iManage Work®, Meridio, HighQ, and Dynamics CRM - making them the default repositories for project/case management and legal matter management, all managed from teams' familiar Office 365/Outlook environment.

Our products underpin the success of organizations ranging from Eversheds Sutherland, gunnercooke, ForFarmers, Pentland Brands, Value Retail, Boels Zanders Advocaten and Brose Group.
